

Incoming Seniors Summer Assignments

Victor Montalvo,

Congratulations on completing (almost!) your junior year! You are one step closer in climbing that mountain to college, however, there is still SO much work to be done! In your senior year you will continue to challenge yourself to develop as an individual and as a scholar. You will engage in some of the most critical academic experiences of your life so far: applying to college, taking the SAT for a final time, taking multiple college-level courses. We want to set you up for success in 12th grade and make sure that all of the skills you developed in 11th grade stay with you over the summer.

Did you know:

- 2 months of reading skills and 2.6 months of math skills are lost over the summer
- It can take up to 2 months at the start of the year to regain skills lost over the summer
- Engaging in reading and math based activities over the summer can prevent learning loss ¹

For this reason, completing summer homework assignments is essential in your preparedness for senior year. **Each of your assignments will be collected and graded on the first day of school next year.** Quality completion of the assignments will get you started with a strong grades next year AND will allow you to further develop the skills you learned this year. Not completing the assignments is not an option. If you do not come on the first day with the assignments completed, you will receive a 35% and will be required to complete the assignment in the fall.

You have assignments for the following classes:

AP Research project
AP Statistics
AP Biology

Extra copies will be located in the office throughout the summer and contact information for any questions are in the assignment directions.

Have a wonderful summer and see you next year!

We want to set you up for success in 12th grade and make sure that all of the skills you developed in 11th grade stay with you over the summer.

Did you know:

- 2 months of reading skills and 2.6 months of math skills are lost over the summer
- It can take up to 2 months at the start of the year to regain skills lost over the summer
- Engaging in reading and math based activities over the summer can prevent learning loss ¹

For this reason, completing summer homework assignments is essential in your preparedness for senior year. **Each of your assignments will be collected and graded on the first day of school next year.** Quality completion of the assignments will get you started with a strong grades next year AND will allow you to further develop the skills you learned this year. Not completing the assignments is not an option. If you do not come on the first day with the assignments completed, you will receive a 35% and will be required to complete the assignment in the fall.

You have assignments for the following classes:

AP Research project
AP Statistics
AP Biology

Extra copies will be located in the office throughout the summer and contact information for any questions are in the assignment directions.

Have a wonderful summer and see you next year!

Incoming Seniors Summer Assignments

Lucas Lopez-Hernandez,

Congratulations on completing (almost!) your junior year! You are one step closer in climbing that mountain to college, however, there is still SO much work to be done! In your senior year you will continue to challenge yourself to develop as an individual and as a scholar. You will engage in some of the most critical academic experiences of your life so far: applying to college, taking the SAT for a final time, taking multiple college-level courses. We want to set you up for success in 12th grade and make sure that all of the skills you developed in 11th grade stay with you over the summer.

Incoming Seniors Summer Assignments

Genesis Reyes,

Congratulations on completing (almost!) your junior year! You are one step closer in climbing that mountain to college, however, there is still SO much work to be done! In your senior year you will continue to challenge yourself to develop as an individual and as a scholar. You will engage in some of the most critical academic experiences of your life so far: applying to college, taking the SAT for a final time, taking multiple college-level courses. We want to set you up for success in 12th grade and make sure that all of the skills you developed in 11th grade stay with you over the summer.

Did you know:

- 2 months of reading skills and 2.6 months of math skills are lost over the summer
- It can take up to 2 months at the start of the year to regain skills lost over the summer
- Engaging in reading and math based activities over the summer can prevent learning loss ¹

For this reason, completing summer homework assignments is essential in your preparedness for senior year. **Each of your assignments will be collected and graded on the first day of school next year.** Quality completion of the assignments will get you started with a strong grades next year AND will allow you to further develop the skills you learned this year. Incoming Seniors Summer Assignments

Amara Allen,

Congratulations on completing (almost!) your junior year! You are one step closer in climbing that mountain to college, however, there is still SO much work to be done! In your senior year you will continue to challenge yourself to develop as an individual and as a scholar. You will engage in some of the most critical academic experiences of your life so far: applying to college, taking the SAT for a final time, taking multiple college-level courses. We want to set you up for success in 12th grade and make sure that all of the skills you developed in 11th grade stay with you over the summer.

Did you know:

- 2 months of reading skills and 2.6 months of math skills are lost over the summer
- It can take up to 2 months at the start of the year to regain skills lost over the summer
- Engaging in reading and math based activities over the summer can prevent learning loss ¹

For this reason, completing summer homework assignments is essential in your preparedness for senior year. **Each of your assignments will be collected and graded on the first day of school next year.** Quality completion of the assignments will get you started with a strong grades next year AND will allow you to further develop the skills you learned this year. Incoming Seniors Summer Assignments

Paushaya Hudson,

Congratulations on completing (almost!) your junior year! You are one step closer in climbing that mountain to college, however, there is still SO much work to be done! In your senior year you will continue to challenge yourself to develop as an individual and as a scholar. You will engage in some of the most critical academic experiences of your life so far: applying to college, taking the SAT for a final time, taking multiple college-level courses. We want to set you up for success in 12th grade and make sure that all of the skills you developed in 11th grade stay with you over the summer.

Did you know:

- 2 months of reading skills and 2.6 months of math skills are lost over the summer
- It can take up to 2 months at the start of the year to regain skills lost over the summer
- Engaging in reading and math based activities over the summer can prevent learning loss ¹

For this reason, completing summer homework assignments is essential in your preparedness for senior year. **Each of your assignments will be collected and graded on the first day of school next year.** Quality completion of the assignments will get you started with a strong grades next year AND will allow you to further develop the skills you learned this year. Not completing the assignments is not an option. If you do not come on the first day with the assignments completed, you will receive a 35% and will be required to complete the assignment in the fall.

You have assignments for the following classes:

AP Research project
AP Calculus
AP Biology

Extra copies will be located in the office throughout the summer and contact information for any questions are in the assignment directions.

Have a wonderful summer and see you next year!

Congratulations on completing (almost!) your junior year! You are one step closer in climbing that mountain to college, however, there is still SO much work to be done! In your senior year you will continue to challenge yourself to develop as an individual and as a scholar. You will engage in some of the most critical academic experiences of your life so far: applying to college, taking the SAT for a final time, taking multiple college-level courses. We want to set you up for success in 12th grade and make sure that all of the skills you developed in 11th grade stay with you over the summer.

Did you know:

- 2 months of reading skills and 2.6 months of math skills are lost over the summer
- It can take up to 2 months at the start of the year to regain skills lost over the summer
- Engaging in reading and math based activities over the summer can prevent learning loss ¹

For this reason, completing summer homework assignments is essential in your preparedness for senior year. **Each of your assignments will be collected and graded on the first day of school next year.** Quality completion of the assignments will get you started with a strong grades next year AND will allow you to further develop the skills you learned this year. Not completing the assignments is not an option. If you do not come on the first day with the assignments completed, you will receive a 35% and will be required to complete the assignment in the fall.

You have assignments for the following classes:

AP Research project
AP Calculus
AP Biology

Extra copies will be located in the office throughout the summer and contact information for any questions are in the assignment directions.

Have a wonderful summer and see you next year!

You will engage in some of the most critical academic experiences of your life so far: applying to college, taking the SAT for a final time, taking multiple college-level courses. We want to set you up for success in 12th grade and make sure that all of the skills you developed in 11th grade stay with you over the summer.

Did you know:

- 2 months of reading skills and 2.6 months of math skills are lost over the summer
- It can take up to 2 months at the start of the year to regain skills lost over the summer
- Engaging in reading and math based activities over the summer can prevent learning loss ¹

For this reason, completing summer homework assignments is essential in your preparedness for senior year. **Each of your assignments will be collected and graded on the first day of school next year.** Quality completion of the assignments will get you started with a strong grades next year AND will allow you to further develop the skills you learned this year. Not completing the assignments is not an option. If you do not come on the first day with the assignments completed, you will receive a 35% and will be required to complete the assignment in the fall.

You have assignments for the following classes:

AP Research project
AP Statistics
AP Biology

Extra copies will be located in the office throughout the summer and contact information for any questions are in the assignment directions.

Have a wonderful summer and see you next year!
